MR. DODGE COMES TO THE FRONT

Tells His Friends and Neighbors Of His Experience

Every Morrisville resident should read what Mr. Dodge says, and follow his example. He has used Doan's Kidney Pills and speaks from experience. Is there any need to experiment with imitations or untried kidney medicines?

H. W. Dodge, Main street, Morrisville, says: "I used Doan's Kidney Pills with excellent results a few years ago when my back and kidneys were in bad condition, caused by heavy work and lifting. My back bothered me very much when I got up mornings and I found it hard to lean over or do my work. My kidneys were weak and I often had to get up a couple of times to pass the secretions which were highly colored and burned in passage. I heard of Doan's Kidney Pills and got a couple boxes at Cheney's Drug Store. In a short time they gave me wonderful relief. I am glad to recommend Doan's Kidney Pills."

He leaves his second wife, a son, Francis who is now on a sea voyage for his health which was shattered when he was gassed in the service, a daughter, Miss Edythe Town; a sister, Mrs. Ellen Mott of Syracuse, N. Y., and two half-sisters, Mrs. Eunice Pottle and Mrs. Abbie Pike of Stowe. A son died several years ago at the age of 17. His first wife, who was Miss Minnie Nutting of Stowe, died in Framingham many years ago.

More Guide Posts Needed

While the main thing to stimulate tourist travel is to have good roads, still there are smaller details which ought to be attended to because they result in a satisfaction out of all proportion to their cost.

Take the matter of sign boards. In these many Vermont roads are deficient. Road intersections are unmarked and the traveller has to take a chance until he can make an inquiry somewhere. May be he has guessed correctly. If not he has to turn around and get started right. This really isn't a satisfying experience. And there is no very substantial reason why any one should have the experience.

Sign boards are not expensive; they return a service out of all proportion to their cost, as has been stated. This is a matter that ought to be attended to. Details are well worth the attention of those who cater to business.—St. Albans Messenger.

Government Expenses

Vermonters pay over two million dollars in federal income taxes every year. Yet when Congress offers Vermont a few hundred thousand dollars for this purpose or that, providing the state will match it with an equal amount, the legislature jumps for the bait on the theory that Vermont is getting something for nothing. In all, this little state contributes over three million dollars a year for Washington to disburse, only a small portion of which ever dribbles back.—Randolph Herald and News.

The success of the 1921 state fair probably has ended all the talk about the fair's alleged uselessness. Moreover, White River Junction did not prove so hard of access but what a huge crowd in the aggregate was in attendance during the week.—Barre Times.

Fore! Golfers

Father died away last spring." "Father didn't die, you dub!" "Father joined the golfing club. The Power of an Endless Life

By REV. GRANT STROH
Correspondence Department, Moody Bible Institute, Chicago.

TEXT.—Who is made . . . For the power of an endless life. For he testifieth, Thou art a priest forever after the order of Melchisedec.—Heb. 7: 15, 16, 17.

More than five thousand catalogued books have been published upon the subject of the future life. A distinguished publisher once said that if the word "heaven" was in the title of a book it was almost sure to be a good seller. Everybody has a personal interest in the mysteries of the life beyond the grave.

"Thou art a priest forever after the order of Melchisedec." Not of the order of Aaron, or after the law of a carnal commandment. Christ's priestly work was not completed when He offered Himself as a sacrifice for sin upon the cross. His intercessory work for us is continued in heaven. It is going on now. The Atonement priesthood was earthly, temporary and imperfect. It came to an end. Not so the priesthood of Christ. He is a priest forever, after the power of an endless life.

In Christ there is neither changing nor aging. Unceasingly His work continues for us within the veil whither He has gone. "He ever liveth to make intercession for us." In the power of His resurrection life Christ continues to intercede and to work for us, in our behalf, and also within us.

Salvation Not Separate From the Savior.

Salvation is not an outward, objective thing or possession. Eternal life is ours only because Christ is a living savior. He made atonement for our sins and is now seated at the right hand of God as our high priest, but He also abides within us in the person and the power of the Holy Spirit. Only thus can He meet our needs, only thus can we know the life more abundant, the life that is strong and victorious.

Through Christ we too may live a resurrected life, a life that is as endless as His. This implies, for us, future and endless development. We can never attain unto infinity but we can always be moving towards it. For those who are in Christ a life is in store that is limitless in its unfolding possibilities.

That uncircumscribed life will have unlimited possibilities of knowledge. In this life our knowledge is limited upon every side. Over yonder we shall know as we are known, and natural and physical barriers will all be removed. Present knowledge will be added to indefinitely and boundlessly.

Every quality and capacity of the soul is capable of measureless development. The endless life will afford the opportunity. We carry with us beyond the grave only memory, character and capacity. Gifts that have lain dormant here will be freed there. Opportunities that have been denied us here will be granted us there. Ample scope in the heavenly sphere for every heaven-born longing or ambition!

No present life seems complete. Think, too, of all the inequalities, of all the hedged-in lives, of all of those just beginning and suddenly cut off. Their chance is wholly in the future. If right with God and Christ here they will have abundant opportunity in the life to come. God is a just God. There will be a great evening up in the next life.

A young woman who was giving abundantly of her means, her time and her strength to help a little mission church, was remonstrated with. She replied: "It is my investment. My brother is a business man; works day and night. Every cent goes into his business. He thinks, eats, and sleeps business. Why? He says that some day it will pay him big dividends. And that is what I am doing," she said, "putting my life into that little mission." Don't you suppose that she, too, will some day draw big dividends?

The Present Life Resembles a Studio.

The present life has been likened to a studio, with its artists' materials, disorder perhaps, unfinished work, mere suggestions of the finished product. We must visit the picture gallery to really judge the artist. People sometimes impatiently judge God by His unfinished specimens of redemption which they see here. Wait and visit the heavenly gallery, where beautifying processes will have abundant time to come to perfection.

It pays to do the right, to live nobly, to suffer wrongfully, to endure hardship. It would pay if there were no future life. But there is, and we are encouraged to keep it in view and to live in its light.

Fill up each hour with what will last: Buy up the moments as they go; The life above, when this is past, Is the ripe fruit of life below.

Jesus Christ was crucified in weakness, was buried, but was raised in the power of an endless life. All who know Him and the power of His resurrection must also know the fellowship of His sufferings. We must walk the path He walked until we too are received up into glory.
